

ENVIRONMENTAL POLICY

LEGRAND AUSTRALIA IS COMMITTED TO MINIMISING THEIR ENVIRONMENTAL IMPACT THROUGH THE DEPLOYMENT OF THE LEGRAND GROUPS CSR INITIATIVES AND FOUR PILLARS OF THE GLOBAL QUALITY STRATEGY.

OFFER OUR CUSTOMERS SUSTAINABLE BUILDING SOLUTIONS:

- Establish energy management solutions to provide efficient energy solutions for residential, commercial and industrial buildings
- Introduce an innovative eco-design strategy catered to a circular economy, to reduce environmental impact
- Ensure environmentally hazardous substances are traced and use is restricted

INCORPORATE ENVIRONMENTAL ASPECTS ON OUR SITES AND INVOLVE OUR PARTNERS:

- Improve practices to protect natural resources and consumption of resources under stress
- Incorporate environmental concerns into our development programs and assessments
- Provide environmental assessment criteria to logistical flows
- Continually strive to improve environmental and energy performance and reduce impact

INFORM OUR CUSTOMERS TO SUPPORT THEM IN IMPLEMENTING THE BEST SOLUTIONS:

- Provide customers with product and system lifecycle environmental impacts
- Stimulate the design of sustainable buildings through employee training courses

ENCOURAGE ACCOUNTABILITY OF ALL PERSONS INVOLVED:

- Incorporate numerous environmental strategies into business activities
- Communicate relevant environmental requirements to suppliers
- Establish regular communication and staff policy / program support to adhere to CSR strategy
